

Europartners

Biggest independent Freight Forwarder in South America

Customer Challenge

- Poor Visibility into global operations.
- Disconnected Systems leading to discrepancies and poor user experience
- Commoditized Service because of no objective value added to customers

Solution Delivered

- Neurored's one-stop shop System helps Europartners with their day-to-day operations at a global Scale, helping them manage their freight rates, Transport Orders, Schedules, Bookings and have visibility of all the operations at all time.

Outcomes

- 360° overview of the business, through detailed reports, dashboards and alarms to monitor performance.
- A unified single-source of truth with Salesforce.
- Enhanced service and collaboration achieved by sharing information through customer community.

"Neurored partnered with us to digitize our business by investing ample time to understand our vision and processes." - Lisset Muñiz, PM Europartners
